Part II

Date | 13.3.2016 | 16 pm to 19 pm

Location | Kölibri – GWA St. Pauli

Hein-Köllisch-Platz 12, 20359 Hamburg

Are Refugees welcome in Germany?
Wake-up call to any societies about refugee topics in public now!

It's big problematic topic now on public about refugees coming to Europe. Everywhere of media outlets, radio stations, television, newsletter and newspapers around all over the country, debating, without the effected people. We died in our country by guns and bombs and here in Europe, too. They killed us again by media to show a negative way of refugees. Most of the peopels in Germany and societies in Europe are now afraid to speak out about the racist law and racist system dealing with refugees. In terms of all, refugees are not wellcome in Germany and all Europe. We are very exclamation point that, why the society of Germans did not question their politicians, why the refugees flee from various countries to Europe and they come to Germany.

Only your government's can explain you, if you ask the right questions, because they are the costs of all this troubles. They manipulate and extend on the situation that, refugees are here to found better life. Refugee's are criminal's that is why some of them ran away from their country, they even said, refugees are here to collect your social money. Not only this, but also, use refugees to provoke the society in search a way that the society or citizens will turn their minds against refugees and thinking that their problems now is refugees.

Infact, we are the people facing this white supremacy problems in the system and we will not wait for politicians or government to give us an answer because they can not! We come out on the street for our demands and responsibility for our self, because we are all under one umbrella. Join the African Survivals, Lampedusa in Hamburg and other refugees will speak out about the Masses in front of public policy against refugee. You are very welcome to join us at our talk show!

We cordially invite you to this event that scheduled in the coming on!

Please inform yourself on our website of upcoming event's, or send us your email so we can inform you in time.
